Dave,

Do you think the following two items are worthy of inclusion for the weekly update? If nothing else to make sure they are on the radar?

1. Follow-up to citizen complaints on alleged misuse of pressure-treated piles in Pirates Cove, Benner Bay, St. Thomas. Garrison
2. Assist DPNR during site visits to additional citizen complaints concerning potential Angel's share fungus growth, St. Croix. (Note: DPNR expects VI Senate hearings will soon take place on this topic.) Garrison

Geoff
